

Faculty Position at University of Toledo

The Department of Environmental Sciences at The University of Toledo invites applications for a tenure track position at the **Assistant Professor** level in **Earth Surface Processes** to complement existing university and departmental strengths in ecology, hydrology, geology, geography and environmental engineering. Competitive candidates must have a Ph.D. in the geosciences or a closely related field; postdoctoral experience is desirable. The successful candidate will be expected to provide instruction at the introductory level for non-majors as well as for the undergraduate and graduate programs in geology and environmental science.

Our department is a rapidly growing, multidisciplinary, research-oriented academic unit with 23 tenured/tenure-track full-time faculty. The primary research focus envisioned for the candidate is on Lake Erie Basin physical interactions, especially at the land-lake interface. Research opportunities are particularly promising in the western Lake Erie basin, where the confluence of an intensively used agro-urban watershed and an economically and ecologically critical water body produce an ideal natural laboratory for environmental research. This person will be expected to develop an externally funded research program as well as collaborate with colleagues in ongoing large scale, multidisciplinary research projects including watershed investigations, remediation and wetlands restoration. Applicants should have expertise in the application and utilization of remote sensing and computerized geospatial analysis in their research.

It is anticipated that this position will begin in mid-August 2008. Review of applications will begin October 5, 2007 and continue until the position is filled. Salary, fringe benefits and start-up funds are competitive. Applicants should submit curriculum vitae, descriptions of teaching and research interests, and the names and addresses of three references to: Alison Spongberg, Chair, Search Committee, Earth Surface Processes, Department of Environmental Sciences, Mail Stop #604, University of Toledo, Toledo, OH 43606-3390. The University of Toledo is an equal opportunity, equal access, affirmative action employer and educator. M/F/V/D are encouraged to apply.
